General Information

Line: National Rail to South Bermondsey (from London Bridge)

Travel time from London Bridge: less than 5 minutes

Walking time Rail Station to the ground: 5 minutes

Alternatives: The tube stations Surrey Quays and New Cross Gate on the East London Line are within a 15 minutes walk from the ground. However it's not the best area, so you're better with the South Bermondsey station.

After the final whistle: Since the crowd uses both, tube and rail to get home, there are no longer queues at the station. There are sometimes also specials running to London Bridge, which makes things even easier. Please note that away supporters have to stay in their sector for a few minutes after the match.
